

KY 476

Walkertown and Wabaco Transportation Improvements Item No. 10-0209.00

PROJECT DESCRIPTION

The Kentucky Transportation Cabinet (KYTC) is seeking input on the proposed design alternative for KY 476 in the Walkertown and Wabaco portions of Hazard in Perry County. The improvement project will begin at Turner Avenue in Walkertown and extend to the Riverside Cemetery in Wabaco.

The goal of the project is to improve and expand the methods of travel for work, shopping, recreation and well-being for residents and visitors in the Walkertown and Wabaco areas of Perry County. Currently, there are substandard sidewalks along portions of the project corridor. The improvements project will provide ADA (Americans with Disabilities Act) approved sidewalk on one or both sides of KY 476 and add or reintroduce curb and gutter within the project limits.

For more information please visit www.ky476perry.com

Included in this packet is a map of the proposed improvements. Also, attached you will find a survey that can be completed and returned by mail or email to the address provided on the survey form. The survey can also be completed online using the website listed above.
